Navy Science Assistance Program
Human Factors Technical Advisor

Abstract

The Navy Science Assistance Program (NSAP) provides a quick response to Navy and Marine Corps fleet needs and operational problems. Its mission is threefold. First, to identify and resolve urgent technical problems affecting fleet operations and readiness. Second, to establish direct lines of communication between the operational forces and the Navy R&D communities. Third, to expose laboratory R&D personnel to the operational environment. The NSAP field team consists of 18 Science Advisors and 9 Technical Advisors who serve from one to two years as on-site technical representatives on the staffs of major Navy and Marine Corps operational commands. NSAP role's of providing human factors support to the field team and R&D community as well as the perceptions of serving as a new field team member will be addressed.
